Muddy
Faces

Use our **Active Boundaries** resources to create unique spaces in your outdoor environment. **Fences, gates, stiles, tunnels & bridges** provide enriching experiences and physical challenges for children to travel **Over, Under & Through**.

Visit our Outdoor Hub to delve into the pedagogy underpinning our work on **Active Boundaries**.

We've had amazing feedback since we launched our unique **Active Boundaries** range last year. We collaborated with some settings who shared their experiences of outdoor play using our **Active Boundaries** resources. A big thank you to St Patrick's Family Learning Centre and Blossom Years for their generosity and time.

St Patrick's Family Learning Centre, N Lanarkshire

"We constantly strive to improve our outdoors environment to keep it stimulating and interesting for the children and the active boundaries resources seemed to fit the bill perfectly as they can be moved, interchanged with other resources, and also invite ideas and suggestions from the children as to how to use them."

Blossom Years Nursery, Chislehurst

"The equipment is great for demonstrating positional language, the children like to show me how they can "squeeze" through fence spaces and "crawl under" the ladder. The children also like to 'decorate' the fences, and hang things off the posts."

We've noticed the children are...

- confidently problem solving
- quieter children are becoming more involved in group play
- becoming more aware of what their bodies can do
- much more resilient if they fall or trip."
