

Muddy Puddles Care and Size Guide

Fabric Information

Muddy Puddles clothing is 100% waterproof, windproof and breathable. It is generously sized to allow layering and protects from the rain, wind and mud all year round.

The clothing is made from a lightweight fabric that is fully waterproof to 5000mm, breathable to 2000g/m² and machine washable. The outer fabric can withstand a hydrostatic pressure test of at least 5000mm of water.

Washing and care guide

PLEASE REMEMBER to refer to the care labels for each specific garment and carefully follow instructions. The way you clean your waterproofs can make the difference from them lasting a few weeks to lasting a few years.

Every time you wash any outdoor clothing it reduces its waterproof ability. If you can, try not to wash waterproofs in the washing machine. Leave them muddy and brush the mud off when it dries or use the bucket cleaning technique - see below.

Fill a bucket with cool water. **DO NOT ADD ANY DETERGENT.** Before washing the garment, brush off any loose mud or dirt. Close zips, velcro fastenings and flaps on jackets and trousers. Put the waterproofs into the bucket and slosh around. Two buckets may be necessary if they are particularly dirty. Hang up to dry in a position that allows air movement.

The Muddy Puddles Originals clothing is machine washable, however you need to refer to the care label for each individual item of clothing. Please be aware that even if you follow the care instructions carefully, it will reduce their waterproof lifespan. If you are washing in a machine make sure the detergent compartment of your washing machine is clean of any detergent or softener. If you run a hot wash program whilst the machine is empty, prior to washing the waterproofs, it will clear any residue from detergent or softener residue.

DETERGENT - Waterproof clothing should never be washed using ordinary detergent or fabric softener. The chemicals in detergent can break down the composition of the fibres with each wash and strip the fabric of its waterproof coating.

Remember to always check the label of your garment for exact care details.

After washing the garment hang up to air dry or tumble dry on a low or medium heat, **IF** garment care instructions allow. Make sure all waterproofs are completely dry before storing away, to avoid them becoming moldy or musty. Avoid storing in direct sunlight.

If you notice that the fabric of your jacket or trousers is absorbing rather than repelling water you may also need to re-waterproof your garment.

Muddy Puddles Size Guide

Help in choosing the correct size.

Please use the ages as a reference. Measure your child's height and use the size guide below to help you decide which of the sizes is correct for your child.

Muddy Puddles clothing is designed to allow room for growth and the dual sizing will comfortably fit the larger size. Eg. 3-4 years would be towards a 4 year size so there is no need to buy a larger size.

Muddy Puddles Care and Size Guide

The waterproofs are generously cut and designed to give lots of room for warm clothes underneath so there is no need to order a bigger size.

Toddler

Age	Height (cm)	Weight (lb)	Weight (kg)
12-18mths	86cm	24	11
18-24mths	92	27	12.5

Child

Age	Height (cm)	Chest (cm)	Waist (cm)	Leg (cm)
2-3yrs	98	55	53	56
3-4yrs	104	57	54	61
4-5yrs	110	59	55	66
5-6yrs	116	61	57	70
7-8yrs	128	67	60	78
9-10yrs	140	73	64	87
11-12yrs	152	79	68	95
